PROFILE

I'm Francisco, a nomad frontend developer from Argentina. Right now I'm applying my strong experience in UX/UI to develop and bring to life projects with ReactJS.

I'm living in USA until July 2024 then I'll move to Denmark the rest of the year.

PROFESSIONAL EXPERIENCE

Founder, UX/UI Designer, Product Manager Breo App

March 2020 – June 2021 | Santa Fe, Argentina

Successfully launching and managing a groundbreaking delivery app connecting local shops with

customers in my region. Strong expertise in app development, user-centric design, and community building. Proven ability to lead cross-functional teams and drive business growth through strategic planning and execution.

Conceptualize, develop, and launched a cutting-edge delivery app that revolutionized the way local

shops connect with customers in the region.

Lead the entire app development lifecycle, from initial ideation to product launch, ensuring a seamless user experience and robust functionality.

Utilized user-centric design principles to create an intuitive and visually appealing app interface, resulting in high user engagement and positive feedback.

Successfully secured partnerships with local shops, ensuring a diverse and comprehensive catalog of products for app users.
